

All the faculty members and students have good access to computers. A separate computer lab with full time internet facility has been established exclusively for the use of students. Computer facility is also available in the office for administrative and other office related works. All the computers in the College of Forestry network has round-the-clock connectivity through the internet. Wi-Fi connectivity is available in the College. The College of Forestry is also linked with the KAU head quarters and other sister organizations within the KAU main campus at Vellanikkara through the PABX system.
